Monday, August 2, 2021

Good Morning Southfield Public School Parents!

It is with great pleasure that Southfield Public Schools would like to announce that we are implementing CommunityPass as a “One-Stop-Shop” for your SPS student’s needs.

What is CommunityPass? <https://communitypass.net/schools/>

CommunityPass is a comprehensive, easy-to-use online school registration software and payment processing solution for public, private and charter schools, adult education and community schools, before and after care programs, enrichment, affiliated clubs, and parent teacher organizations. This all-in-one platform makes managing school-based programs and fees easier than ever, and provides the tools you need to succeed.

In short, CommunityPass is where you will provide funds for your student’s lunch accounts. Additionally, you can pay for other programs and student fees online or from your mobile device.

You may have already received the welcome letter to create your CommunityPass online account. Please note that CommunityPass updates based on your MiStar profile so please ensure that your MiStar is current.

Please contact us if you have any questions about the use of CommunityPass.

Thank you,

Jesse D. Sutton
